

GIOSTRA

The new carton header applier of M.C. Automazioni is a compact and very versatile machine.

It is possible to apply the carton header on every type of square-bottom and pillow bag.

The bag, previously welded, is automatically inserted into the GIOSTRA for the application of the carton header, which according to requirements can be riveted, glued or heat-sealed.

The strength of the GIOSTRA is the simple and quick format changeover.

- Performances up to 20 bpm
- Application of carton headers
- Application of metal rivets
